

Prashant Tiwari

Portfolio

I am writing to express my interest for the position of **Senior Software Engineer** .

I am a results-oriented Software Developer, having 9 years of experience in developing embedded applications using C++. I am a quick learner & self driven. My ability to quickly assess the situation and get going with the work needed to finish a task is my biggest strength. I am also very prestigeless in my way of working & always open to help others.

I have experience in **Embedded Syatem & Design** & worked on different domains (**Avionics, Transportation & Networking**). At present, I am associated with **GE Transportation, Bangalore, as a Lead Software Developer**.

During my 9 years of the career , I not only have developed technical skills but have also demonstrated leadership qualities by taking additional responsibilities and supporting team at various levels.

I have strong experience in Object Oriented Programming & having familiar with Software Design patterns & diiferent methodology like DO178-B, DO178-C & EN50128.
